This Was Attributable to the High Price of Cotton-The List as a Whole Hung Heavy-Bonds, Too, Were Generally Dull.

YORK, Sept. 6.—The hopes NEW YORK, Sept. 6.—The hopes aroused by yesterday's increase in business for a more active market were disappointed to-day. The stock market again became an unimportant affair. London, in particular, renewed its attitude of indifference toward American securities, and buying for that account in New York fell back to insignificant proportions. This served to discourage the local traders. A hardening of the discount rate in London had something to do with the setback to the stock market. In weekly statement for the Bank of England discloses that the casy tone of the open money market is not looked upon with favor by the authorities of the bank, and its governors believe that the prevailing easiness of money will not last long. The rise in the discount in Berlin and the fail of sterling exxhange there were also incidents of the day. The rebuilt was emphasized by the pronounced weakness in anthracite coalers, which declined on the ultimatum offered by the operators to the miners and the fears thereby caused of a strike. The steel stocks were heavy, as a rule, apparently on the refusal of the trunk lines to grant a reduction in freights from Pittsburg. Colorado Fuel and Iron was an exception on the heavy increase in net earnings reported for July over those of a year ago. The continued decline in the prices of fron also affected the group. The bears were disposed to let People's Gas and Brooklyn Transit alone, mindful of their recent unpleasant experience with Sugar. Where there was any demand developed there was a significant scarcity of stocks offering, and prices advanced easily. This was notable in Southern Railway. The list, as a whole, hung heavy and neglected throughout the day. Kansas City Southern bonds were active; otherwise the bond market was dull. Total sales, par value, \$730,000. United States refunding 2's (when issued) advanced 4 in the bid price.
